## StoColor System

Il nuovo StoColor System si basa su un cerchio cromatico di 1000 colori per la realizzazione dei vostri progetti di architettura.

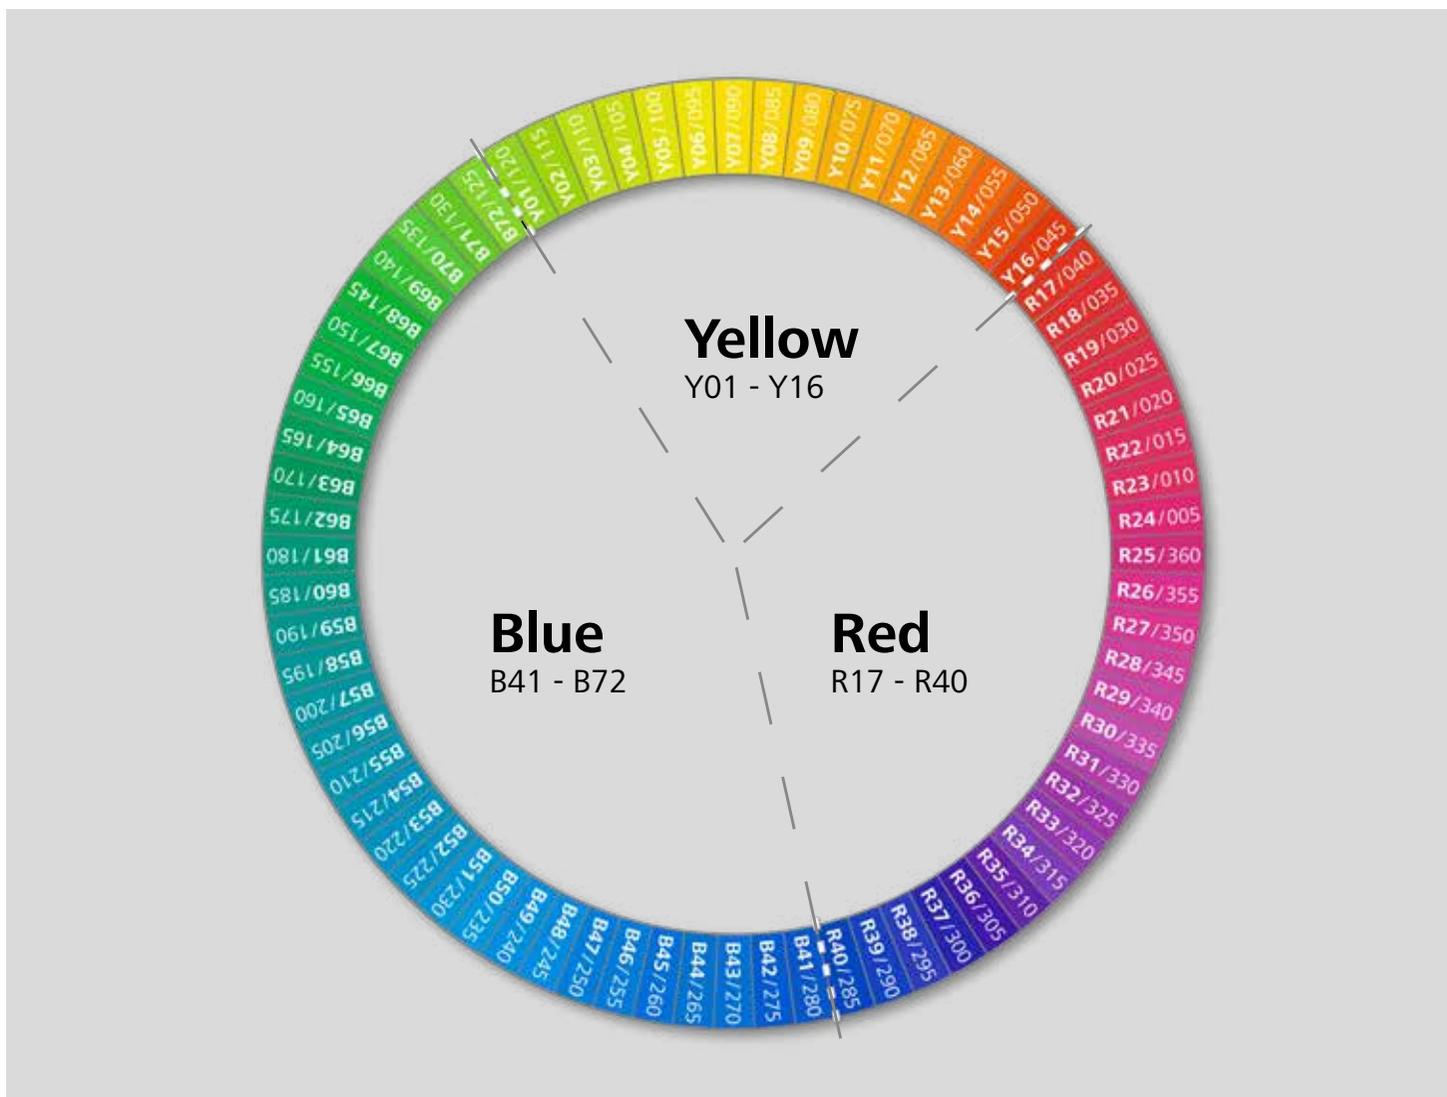

Il sistema è formato da 72 aree cromatiche (Y01-B72), divise secondo i colori primari GIALLO (Y), ROSSO (R) e BLU (B). Ognuna di queste aree cromatiche definisce delle nuances per un utilizzo pratico. La gamma dei colori Neutri & Naturali (N) si completa con toni del nero, del grigio e del bianco, inclusi 65 tinte di particolare rilevanza storica e culturale.

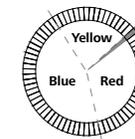

Maggiori informazioni e spiegazioni relative al sistema sono disponibili online agli indirizzi:

## Nota

La rappresentazione dei colori può differire leggermente rispetto all'originale per motivi tecnici (modello dello schermo, impostazioni di visualizzazione ecc.). Lievi differenze rispetto al colore originale possono essere legate anche al materiale o, per i supporti cartacei, alla stampa. Per ordini successivi dello stesso colore, indicare sempre il numero dell'ultimo ordine effettuato. Si noti che il tipo e la struttura del supporto e la struttura dei singoli rivestimenti possono comportare diversi effetti di colorazione e che nel tempo possono determinare variazioni di colore.

Non saranno quindi accettati eventuali reclami legati a differenze di colore dovute alle cause sopra indicate. Le istruzioni per l'uso/le schede tecniche devono sempre essere rispettate e possono essere richieste presso ogni filiale nazionale Sto.
