

CERTIFICATE

Sto SE & Co. KGaA

Ehrenbachstraße 1 · D-79780 Stühlingen

have voluntarily subjected their product

StoColor Select Plus

to inspection and testing according to the

TÜV SÜD Test Standard TM 07
"Dispersion Paints Issue 01-2022"

The examination has furnished proof that the standard mentioned above is fulfilled in its entirety.

Sto SE & Co. KGaA are granted the right to use the
TÜV Mark >> Low emission, Pollutant tested and Production monitored <<
according to contract.

This certificate is valid until 31.12.2024

Certificate-Nr. TM-07 / 240506-3

Evaluation of the emission characteristics and toxic and environmentally relevant constituents of StoColor Select Plus

On behalf of Sto SE & Co. KGaA, TÜV SÜD Industrie Service GmbH tested a sample of the emulsion paint **StoColor Select Plus** regarding the criteria for the award of the TM-07 TÜV mark, "low-emission, pollutant tested, production monitored".

The emission characteristics were tested in an emission test chamber, under conditions like those in found practice. The results are described in detail in Test Report No. 20-S1428-37, dated 06.11.2020.

The results can be summarised as follows:

- solvent-free (VOC content < 0.05 %)
- plasticizer-free (plasticiser content < 0.05 %)
- no fogging agents (semi-volatile organic compounds < 0.05 %)
- no heavy metals (the proportion of substances with bioavailability lies within the limits set by the Safety of Toys standard EN 71-3)
- very low emissions (TVOC < 500 µg / m³)

StoColor Select Plus meets the stringent criteria of TÜV SÜD's test standard TM-07 "emulsion paints", Version 12-2019. Based on the test results, **StoColor Select Plus** can be classified as solvent-free and plasticizers-free according to VdL-RL 01.

Under normal processing and application conditions (see the current version of the technical data sheet), no adverse effects on the processor or user are expected.

Yours faithfully,
